

Adams County Extension

Small Acreage Newsletter

June 2009

My name is Jennifer Tucker and I too, am a small acreage owner in Adams County! My husband and I keep busy with a small flock of sheep for hand spinning, a few goats and several horses. I am a graduate of Oklahoma State University, with a BS in Agricultural Education and Extension. I am thrilled to be helping land owners and improving the land of Adams County!

The Small Acreage Program in Adams County is a privilege that few counties in the state can claim. The Small Acreage Program is for assisting the small acreage land owner. The program answers your questions and assists you in the management of your acreage. The focus of my job is answering your questions about plants and weeds, pasture planting recommendation, Soil Surveys, animal management, gardening, and any other questions relating to managing land in Adams County. I can also visit your property when you have a question or problem that needs to be understood. As a county funded employee your tax dollars fund my position. I am here to help you, so please don't feel shy about asking for assistance, because I am working for you! If you have any questions or worries, please feel free to call me at 303-637-8157.

I hope you enjoy this issue of the newsletter. We will continue to send it via email for free. If you have any friends or neighbors that would like to be included, please let me know. For those of you that live in Planned or HOA type communities and would like to plan a workshop, I am available to do that at no charge. I can cover topics that are of concern to your area. I am also involved in conferences and workshops, put on by various organizations, at the county and regional level. Please be sure to say hello if you attend one of these events! If you have an area of interest that you would like to read more about please drop me a note and we would be happy to consider the topic for an article.
