

# 4-H Mini Greenhouse

## A School Enrichment Program

**L**et your students participate in an exciting, hands-on project. Arapahoe County Extension provides teachers with six school enrichment programs.

The 4-H Mini Greenhouse program is:

- Designed for primary grades.
- Gives students the opportunity to learn why plants are important for people.
- Demonstrates what plants need to survive and the function of plant parts.
- Allows students to plant three types of seed in the own greenhouse, observe germination and conduct experiments with the help of a Teacher's Guide.

Cost is \$1.75 per kit with a free on-line Teacher's Guide with every 20 kits purchased. It's fun and a great learning experience at the same time. For information, call Shaylen Florez at 303-730-1920. Deadline is Feb. 15, 2010.
