

Welcome Kim!

Hello from the “newbie” in the Boulder County 4-H program! I am very excited to be on the job and am looking forward to getting to know all of you. I want to introduce myself and tell you a little about my background.

For the past eleven years I have worked as a 4-H Youth Development Educator for University of Illinois Extension. In that position I focused on community club, school enrichment, and outreach programs for the Moultrie and Douglas County Extension. This is a rural agricultural area with a diverse population. It is home to the largest Amish community in Illinois. The Amish work in the Ag industry and have a wide variety of cottage businesses out of their homes. The counties are also home to a growing Hispanic population that originally moved to the area to work in the broomcorn industry. Then there are the non-Amish, non-Hispanic residents, which the Amish refer to as “English”. I feel lucky to have had the opportunity to be a part of such a culturally diverse rural area.

I am married to Rick and between us we have five grown children whom are scattered across the U.S. We also have two dogs that we spend our time “raising”. Rick is one of the co-founders and owners of Distant Focus Corporation. DFC is a small company specializing in prototype development services and building products based on advanced imaging technologies. Approximately two years ago Rick began considering relocating a division of DFC to Colorado. After researching the front-range area we decided Boulder County would be a great option.

The decision to expand my husband’s business to Colorado began my journey of seeking employment within the CSU Extension system. I feel lucky to have the opportunity to work with Boulder County 4-H. While there are organizational differences in Colorado and Illinois 4-H I know that my passion for working with youth and adults will be the same. I am anxious to get to know more about the Boulder County 4-H program and the individuals that make it happen. Please feel free to stop by the office or to look me up at the upcoming 4-H events and introduce yourself.

Tips for Project Completion	2
ChallengeDay	4
Boulder County Fair Schedule	6

Project Display Hints and Tips

Display boards are the only display boards that can be used for 4-H projects. Display boards are made of lightweight cardboard and are sturdy, attractive, inexpensive and available at most local stores. They come in several colors. 4-H projects are to use the standardized showboard (display board) size of 4ft. x 3ft. (See example below).

Tips for making a display:

- Use large, bold letters for exhibit title, captions, etc. Boards must be easily read from a distance of three-to-five feet. Use large bold letters (at least 3" high) for exhibit title or captions.
- Design the exhibit by keeping in mind the size and shape of the open display (three surfaces including the wings).
- When mounting items on the showboard avoid things that are bulky or heavy which could cause the showboard to collapse. Mount items securely so they won't fall off. Tape will not work.
- You have 60-90 seconds for the message to be read; be concise.
- Tell your story with visuals.
- Avoid putting too much in the exhibit. It should never have a crowded look.
- Dark lettering on a light background is most visible.
- Do not use headers or attachments on your display board.

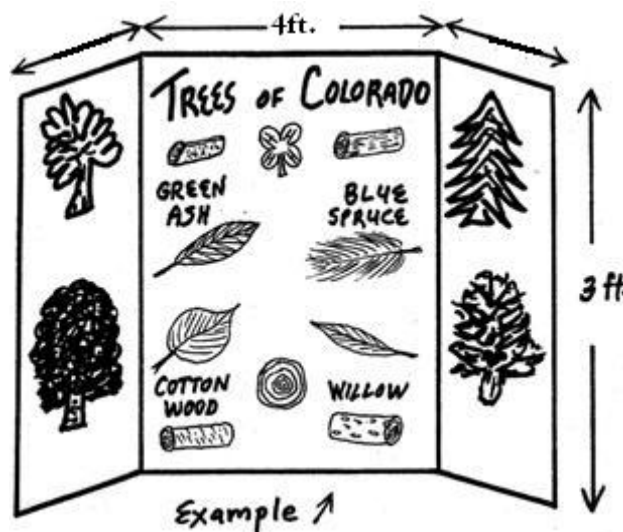

Binder: (For e-records, supplements, additional materials and manuals)

- Binder or notebooks as appropriate for the project should be used.
- Stacks easily and lies flat.
- Do not use the slide binders as the e-record, manuals, supplements and other materials will not stay secure in these types of binders.

**Large Letters
for Title**

**Smaller for Sub-
Headings**

**Include Pictures and
Graphics**

Please Note!

When laid out flat, the showboard is 4'x3' overall. The middle section of the board is 2' wide and the "wing" flaps are 1' wide each. The wing flaps fold and meet in the middle.

**THEY CANNOT
OVERLAP!!**

Tips for an overall outstanding exhibit:

- 1) Follows unit requirements and rules in the fair book
- 2) Attractive
- 3) Relatively simple
- 4) Colorful and/or showing strong contrast
- 5) Creative or artistic
- 6) Sturdy (won't fall apart in transit)
- 7) Educational
- 8) Intriguing
- 9) Gives viewer the impression that you enjoyed this project
- 10) Makes the viewer remark "wow" or "nicely done".

Those who evaluate exhibits like to see:

- 1) Complete, neat records indicating the 4-Her learned & had fun.
- 2) A good story with interesting experiences explained.
- 3) Several photos with at least one action shot of the member doing something with their project. Photos showing processes, growth, change and action are always interesting. Years later, this will be the first page a 4-H member will turn to and reminisce.
- 4) Optional reports, experiments, etc. that are allowed.
- 5) An exhibit that has the 10 qualities listed above.

Judging Elements for Displays:

Educational Merit---does the exhibit show knowledge and/or accomplishments that were met in the project?

Accuracy of Information---does the exhibit contain accuracies and current information on the topic.

Shows Creativity---does the exhibit show originality, freshness and imagination?

Neatness---is the exhibit tidy and easy to follow—words spelled correctly and orderly.

Readable---is the exhibit clear, legible and understandable.

Quality---is the exhibit outstanding---first rate---exceptional---does it exhibit the highest standards according to the exhibit requirements.

Relates to Project Entered---does the exhibit relate to the project---it is connected through the skills and knowledge learned in the project.

The Clover Gazette 4-H Newsletter is published monthly by Colorado State University Extension in Boulder County. Copies are distributed electronically with limited hard-copies available in the Extension office. Notify the office to be placed on a mailing list.

News articles are welcomed by members, leaders and clubs and are due to the Boulder County Extension Office on or before the 10th of the preceding month. Articles may be emailed or type-written double spaced hard copy. The Extension staff reserves the right to make any editorial changes deemed necessary.
