

Greetings 4H Livestock Leaders of San Miguel Basin

This message is sent to you on September 17 2009.

According to my sent list – several weeks ago shortly after Fair – a message was sent out to Livestock Club Leaders across this county to ascertain the time that we could meet and discuss livestock rule changes – as well as club re enrollment for this New Year.

Due to conflicts – that meeting was in need of a cancel.

I am once again attempting to gain some form of true momentum for our project areas as well as clubs and re establish a time that will work for Livestock Leaders to meet – active leader participation and willingness to communicate will assist in generating a productive atmosphere for all. ☺

ITEMS THAT NEED DISCUSSION:

1. Re Enrollment procedures and practices – dictated by CSU – not our County Office
2. Forms that need to be filed yearly (MOU for Club) mandated for compliance
3. Livestock rule adjustments and possible revisions for Fair Book
4. Year themes and ideas for enrollment increase
5. ** NEW ENROLLMENT system introduced by CSU for our Club Leaders
6. New Monthly info card system – no newsletter – all online
7. General yearly leader club kickoff questions

Meeting might be nice to answer questions which one might have ---- prior to forms due dates!

THERE IS NEVER A GOOD TIME – BUT THIS NEEDS TO BE DONE FOR SMOOTH YEAR AHEAD,
Evening for meeting needs to be selected within the next month September 17 to October 17

We are trying something new!! Hang on! ☺

Email will follow shortly with DOODLE SURVEY – this device will ask each of you to select via the computer dates that will work out the best within the next month – dates with the majority of yes responses will be selected – you need to place your name on the line and chose the dates with a click of the mouse = it is as easy as that.

The Doodle survey will be sent today – look for it in your email inbox!

Thank you for your patience as we are attempting to reduce the waste of waiting time and paper costs to get our business accomplished – this will ultimately set up our 4H program to be more efficient and paper clutter free.

Blessings – as I look forward to utilizing new technology to set up a meeting date that will best serve all of our needs much more effectively.

This note will also be posted on our county website, here it is!
