

## News Flash!

### New How-to Video!

Use this step-by-step animated video guide to learn how to lead and participate in this year's National Science Experiment. This fun video, sponsored by DuPont and Pioneer, provides a great snapshot of just how easy and engaging *Biofuel Blast* is! Login to [www.4-H.org/NYSD](http://www.4-H.org/NYSD)

then go to The Experiment to view and share with others. This year's experiment and the how-to video were developed in collaboration with the University of Wisconsin Extension and Wisconsin 4-H.

### Receive \$400 for your County 4-H Program

Thanks to generous support from John Deere, a **\$400 award** will be presented to one county from each state (and one U.S. territory) with the highest number of individual *Biofuel Blast* results survey submissions between October 1<sup>st</sup> and October 30<sup>th</sup>, 2009. The awards can be used toward the implementation and promotion of science, engineering and technology programs in your county. After youth complete the experiment, make sure that they go to [www.4-H.org/NYSD](http://www.4-H.org/NYSD) to fill out the survey so your county can compete for the award

In addition, of those who submit their results through the *Biofuel Blast* experiment survey, five youth names will be randomly selected to **receive a 32GB third generation iPod touch**. The five youth will also be able to designate a 4-H club, school classroom, or youth organization to receive one of the pictured Fuel Cell Car Experiment kits. [Click here](#) for official drawing rules.

### Don't Forget, Send us your Questions!

Dr. Bruce E. Dale, Professor of Chemical Engineering at Michigan State University, will be taking questions from youth and adults interested in learning more about biofuels. He is a leader of the recently established Department of Energy Great Lakes

Bioenergy Research Center (GLBRC) who work to develop cellulosic ethanol and other bioenergy sources. University of Wisconsin Extension worked closely with the GLBRC to develop this year's National Science Experiment – *Biofuel Blast!*

[Click here](#) to learn how you can submit questions for consideration. Answers will be posted before *4-H National Youth Science Day*, October 7, 2009.

*4-H National Youth Science Day* is less than two weeks away – pass the word!
